

*Aim and scope:*

*Lecture Notes of Seminario Interdisciplinare di Matematica* publishes one time per year (extended versions of) lectures given by distinguished guests of S.I.M. as well as original papers in algebra, geometry, analysis, mathematical physics, probability theory and related areas. Review papers which provide an integrated critical survey are also considered.

*The journal is Abstracted/Indexed in MathScinet, Zentrallblath, Google Scholar.*
